

# A Breakfast Bird Feeder

## Inside you will find:

A small tub of any circular-shaped cereal.

String.

Scissors.

Pencil for punching holes in the bread.

You will need to use some stale bread/leftover bread.

## To Make/Play:

1. Using the pencil, punch holes into your stale bread and if not toasted, leave out until stale (overnight).
2. String together the bread crusts and cereal like a necklace and find a great place to hang it together on a tree, in your garden or outside.
