

User Guide

It is widely understood the important role that parents* play in supporting their child's development. The activities included in this pack are designed to support the work you already do with the children in your nurture corner and should enable you to develop and enhance your links with parents.

Instructions for use

- Using the child's Boxall profile choose the appropriate Boxall Developmental Strand.
- Select a **Let's get busy together** activity that links with the focus.
- Put the activity card and resources into a bag.
- Photocopy the assessment sheet or download from Glasgow OnLine (or from your CD if from another local authority), give parent/carer their section which can be completed on their own or in conjunction with you.
- Give out the bag on a Thursday to be returned on the Monday.
- Complete the Assessment Sheet using information from the parent feedback sheet.

Please note:

Although the activities are linked to a Developmental Strand within the Boxall Profile, not every Development Strand is covered. We also recommend that before using the photo cards and the Silly Rhyme cards, that they are cut out and individually laminated.

*Where we refer to 'parents' in this publication, this is an inclusive term to include carers.
